
	R.M. OF WALLACE-WOODWORTH		
	TRANSPORTATION POLICY		
	TITLE : Dust Control Policy		DATE: August 23, 2016
		Amended by: Resolution No. 16/418 Revision Date: August 2018	PAGE: 1

PURPOSE

The Rural Municipality of Wallace-Woodworth has adopted this policy to outline the conditions of the Dust Control Program as adopted by the RM of Wallace-Woodworth.

PROCEDURE

1. The Municipality will advertise in the Empire Advance, Crossroads, and the Oak Lake Town & Country newspapers, on both the Municipal Website and Face Book page, and with posters, in order to determine the level of interest in the Dust Control Program each year.
2. The Municipality will contract out to supply a dust control agent(s) for the Program each year. More than one supplier may be contracted as products may perform differently on varying soil conditions.
3. The Program allows for ratepayers to contract the Municipality to coordinate dust control for the roadway in front of the Ratepayer's residence, farmstead, commercial property, or private laneway, for a length of the roadway to be determined by the Ratepayer.
4. Ratepayers must complete a Dust Control Application/Waiver form prior to the application of dust control product each year. Ratepayers must also determine if they wish to have one or two applications each year, two applications are recommended per year.
5. The Ratepayer will indicate the length of roadway and/or laneway to be treated with flags the day prior to the date of the application of the dust control agent. The flags are to be stakes which are to be a minimum of 3 (three) feet above ground for clear visibility by the truck driver providing the dust control agent. It is the responsibility of the Ratepayer to ensure the stakes are in place for the date of application of the dust control agent.
6. Where possible, the Municipality will provide road gravel in the area to receive dust control prior to the application of the dust control product, as per its annual gravelling program (*this does not apply to private laneways*).

	Dust Control Policy	Amended by: Resolution No. 16/418 Revision Date: August 2018	PAGE: 2

POLICY

1. Rates will apply to all residential, commercial, farmstead, and/or private laneways properties with exceptions only as listed within "Schedule A" of this Policy, which will be the responsibility of the Municipality.
2. The Municipality will invoice the Ratepayer for an amount equal to the amount invoiced to the Municipality by the contractor, plus a five percent administration fee, and GST as applicable.
3. The Municipality accepts no responsibility for the effectiveness of the dust control agent.
4. The Municipality reserves the right to perform such maintenance procedures as it deems necessary on the treated portion of the roadway. Although the municipality will attempt to minimize any adverse effect of these operations on the treated portion of the roadway, the Municipality will not accept liability for any restoration required.
5. The Municipality reserves the right to perform its "regular" maintenance procedures as it deems necessary on the treated portion of the roadway after the 1st day of October each year in order to prepare the roadways for the winter season.

**RURAL MUNICIPALITY OF WALLACE-WOODWORTH
