
	R.M. OF WALLACE-WOODWORTH		
	TRANSPORTATION POLICY		
	TITLE : Dust Control Policy		DATE: August 23, 2016
		Amended by: Resolution No. 24/010 Revision Date: January 9, 2024	PAGE: 1

PURPOSE

The Rural Municipality of Wallace-Woodworth has adopted this policy to outline conditions for dust control application being placed on various Municipal roads or properties.

POLICY

1. Residents/ratepayers will be responsible to arrange for application of dust control at their property.
2. The resident/ratepayer is responsible for all costs for dust control product/application.
3. Residents/ratepayers must notify the Municipal Office in writing by filling out the Dust Control Application and Waiver Form (Schedule A), a minimum of five working days prior to product being applied to allow for prepping the site each year. Subject to approval to apply dust control and conduct site prep on the roadway. Any dust control application under Provincial Road jurisdiction, residents/ratepayers must contact Manitoba Infrastructure directly for approval.
4. Where possible and if there is a need, the Municipality will provide road gravel in the area to receive dust control prior to the application of the dust control product, as per its annual gravelling program or guide (*this does not apply to private laneways*).
5. Approved dust control products are Calcium Chloride and Magnesium Chloride.
6. The Municipality reserves the right to perform such maintenance procedures as it deems necessary on the treated portion of the roadway. Although the Municipality will attempt to minimize any adverse effect of these operations on the treated portion of the roadway, the Municipality will not accept liability for any restoration required.
7. The Municipality reserves the right to perform its "regular" maintenance procedures as it deems necessary on the treated portion of the roadway after the 1st day of October each year in order to prepare the roadways for the winter season.
8. Dust suppressants will be applied by the Municipality on the following Municipal properties and identified locations as approved by Council:
